1	No title info on spine and not much detail about the book to be found on the cover. Younger audiences would love this book with large text, short pages, a picture on almost every set of pages and the simple story. Perfect book for the emergent reader age group.	3/1/2016 4:26 PM

1	To simple for my middleschoolers. I believe it is well written well for the younger set. The illustrations work well with the text. I think the youger set will love it.	4/21/2016 3:46 PM

1	Begins with dated trite, 'once upon a time.' Shifts in verb tense, run-on sentences, and faulty punctuation made this one hard to read. For young readers. Recommended for ages 5-9. Inappropriate for this age group.	3/3/2016 11:19 AM
